

MaaS360 from O₂

Mobile security,
wherever you work

Telefonica

What is MaaS360?

You want to know your mobile devices are secure – wherever your people are working. MaaS360 from O₂ gives you complete peace of mind when it comes to identity and threat management.

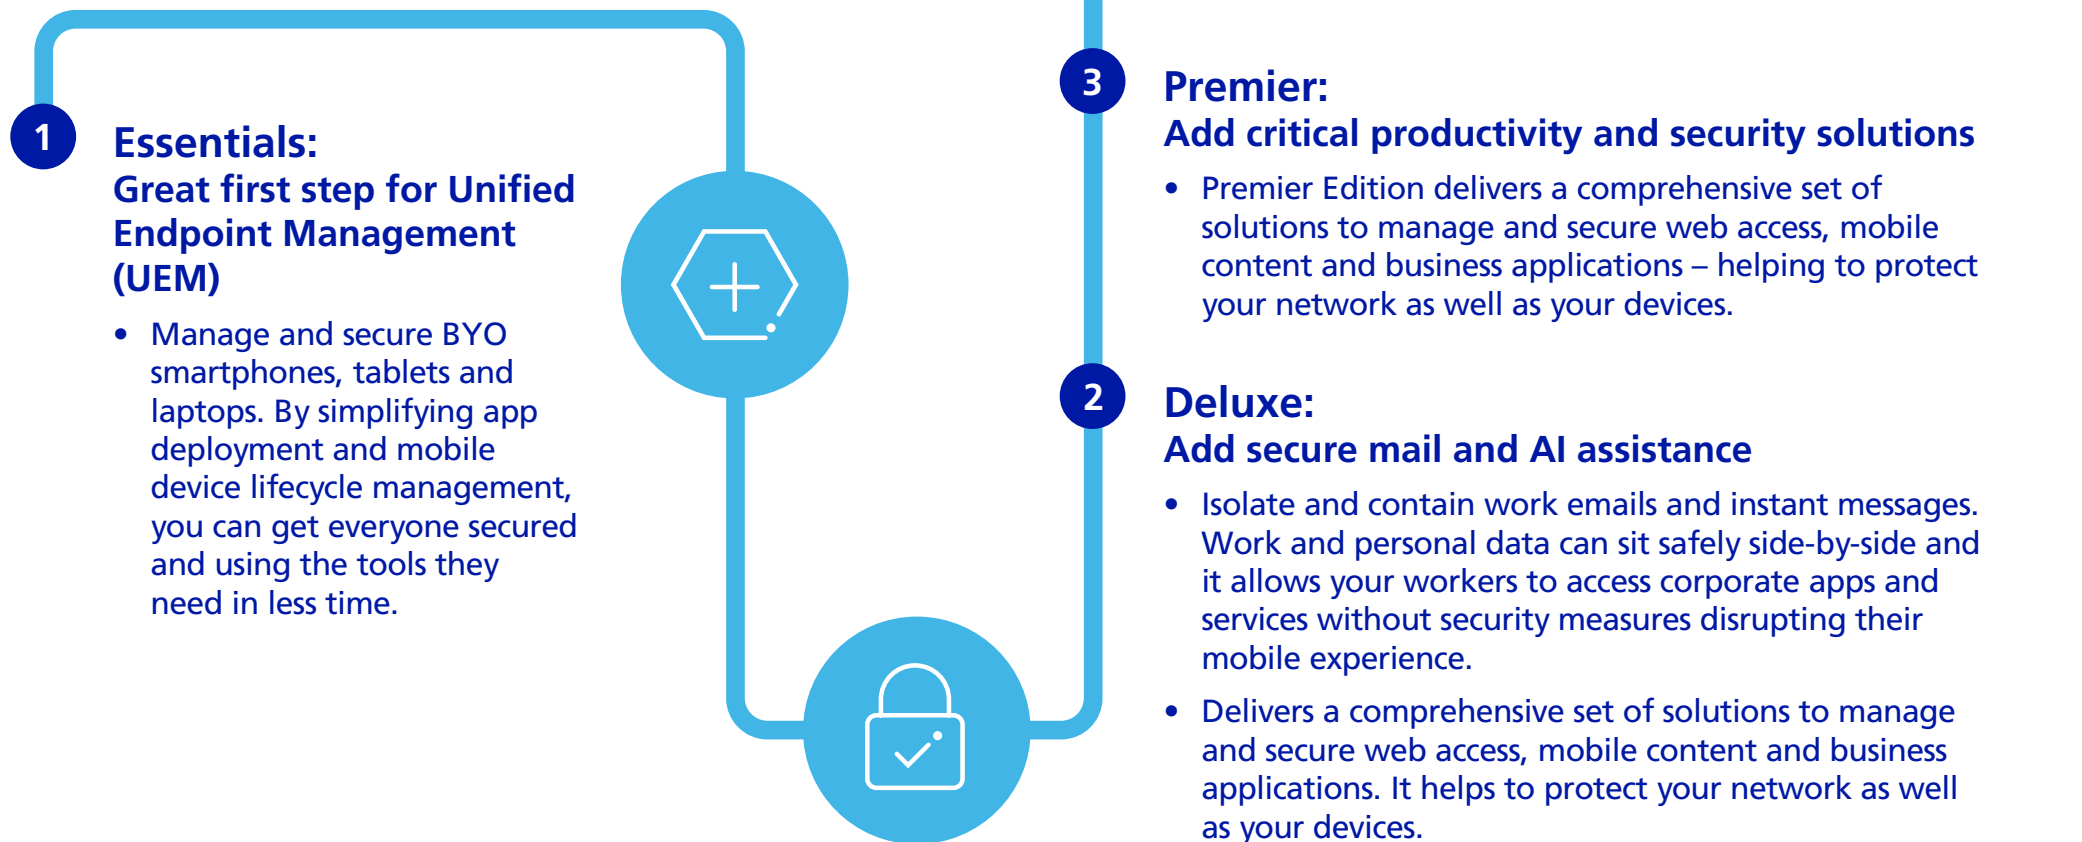

Featuring AI insights to spot and eliminate any vulnerabilities, the solution adds an extra layer of security to all your devices, wherever they are. It integrates easily with your existing systems too, providing mobile security across your whole fleet.

MaaS360 also works with all your business apps, including MS365, Outlook and Gmail. Sign up and we're with you every step of the way, from initial set up and configuration to deployment.

What's included with MaaS360?

There are four MaaS360 packages to choose from, so there's something to fit every need and budget.

The new packages provide new and enhanced capability for your customers.

See below for all the product features.

What support is available?

MaaS360 from O₂

We've made it easier to get the help and advice you need from IBM and O₂ experts. Now you're supported as soon as you choose MaaS360.

Pre-sales support

Get a more detailed look at the MaaS360 with a free one-to-one session. One of our security specialists will discuss your requirements and give you a demo of how the service could work for you. Speak to your partner to book a session.

Post-sales support

Once you're working with MaaS360, you can access our support portal, Service Now to ask any questions you may have.

Voice support line

If you've raised a request via Service Now and need to speak to an O₂ representative directly, you can call our voice support line.

Professional services

Jumpstart is a package you can purchase to remove the hassle of setting up MaaS360 in a one-off two-hour session.
